Summary

A Fullstack Web Developer and Backend Specialist with 1 year of professional experience in building high-performance and user-friendly web applications. I hold a Bachelor's degree in Information Technology from Institut Shanti Bhuana, with a specialization in Web Development and Database Systems. Skilled in building scalable APIs using Express, Laravel, and Go (Golang), especially for high-concurrency applications. Proficient in Next.js for SSR/CSR and SEO optimization. Experienced in delivering modern, responsive user interfaces that enhance both user experience and application performance.
